Lign is a Belgian family business specialized in the **design and production of lighting for furniture and hotel rooms.**

Lign focuses on a strong partnership in the development of your product. Our lighting puts a beautiful & high-quality finishing touch to your product.

The in-house prototype department allows great flexibility in our product range: Adjustments and customization (according to your preferences) are possible, starting from 50 pieces!

Production

Lign has its own production department. This guarantees excellent quality and finish for every product. We have extensive experience with lighting and furniture. This makes Lign the ideal partner for the production and development of new cabinets, wardrobes and beds with integrated lighting.

Our key assets

- Quality
- Customer care and personal service
- Customization
- Made in Belgium
- Innovative

More the 60 years of illuminating history...

1956 | The start of a beautiful story

Lign was founded in 1956 by Oswald Desimpelaere under the name Lumina. The small lighting shop, located in the heart of West Flanders (Belgium), quickly expanded to a production company, specialized in chandeliers.

1970 | Specialization and expansion

In the 1970s, the second generation took over and Lumina started focusing on the development and production of lighting specifically for furniture.

The beautiful furniture lighting did not go unnoticed. It wasn't long before interior designers from the hotel sector took an interest in Lumina. After a successful pilot project for the Sheraton Hotel in Brussels, Lumina became an important lighting partner for the hotel sector.

2016 | From Lumina to Lign

In 2016, the 3rd generation took over the company with Ms. Valerie Scherrens taking the lead as CEO. Following a thorough rebranding, the company name changed to Lign, which is a contraction of light and design.

Present day

Today Lign is still growing and innovating, creating high-quality Belgian lighting products for the furniture and hotel industry.
