

EAI SOLUTIONS FOR HOTELS

ENTERTAINMENT ADVERTISING INFORMATION

We make Hotels a better place

ZAFIRO

The Power to Create

FULL CUSTOMIZATION WITH NO LIMITS

ZAFIRO allows you to create as many GUIs as you desire.

Different GUIs running at the same time within the hotel.

The GUI can be personalized in an unlimited manner.

Changes in any GUIs are Immediately available in the corresponding rooms.

CONVERT TVS INTO A FULL INTERACTIVE POINT OF SALES

Guests are just one click away to purchase or book any hotel internal service.

Integration with hotel POS and also with other reservation systems.

Also Third Party Items, hotel outlet products, etc., can be commercialized through the TV.

SALES REPORTS

Creating special promotions and visualising the impact of them in real time.

CONVERT TVS INTO A REALLY USEFUL POINT OF INFORMATION

Provide relevant information to guests, since you are the most trustful source.

BEST USER INTERFACE GUARANTEES THE BEST USER EXPERIENCE

Bring a tablets navigation experience to the TV.

TV

Guests most Preferred way to watch TV.

Guests can create their own group of TV channel with their favourites ones.

Automatic re-order of TV channel list based in guest nationality or language.

Search engine to quick access the desired TV channel.

VOD

Best Hollywood content for hospitality market.

Best Business model for hotels.

Direct Revenue Generator.

APPS

Give access to your own corporate App through the TV.

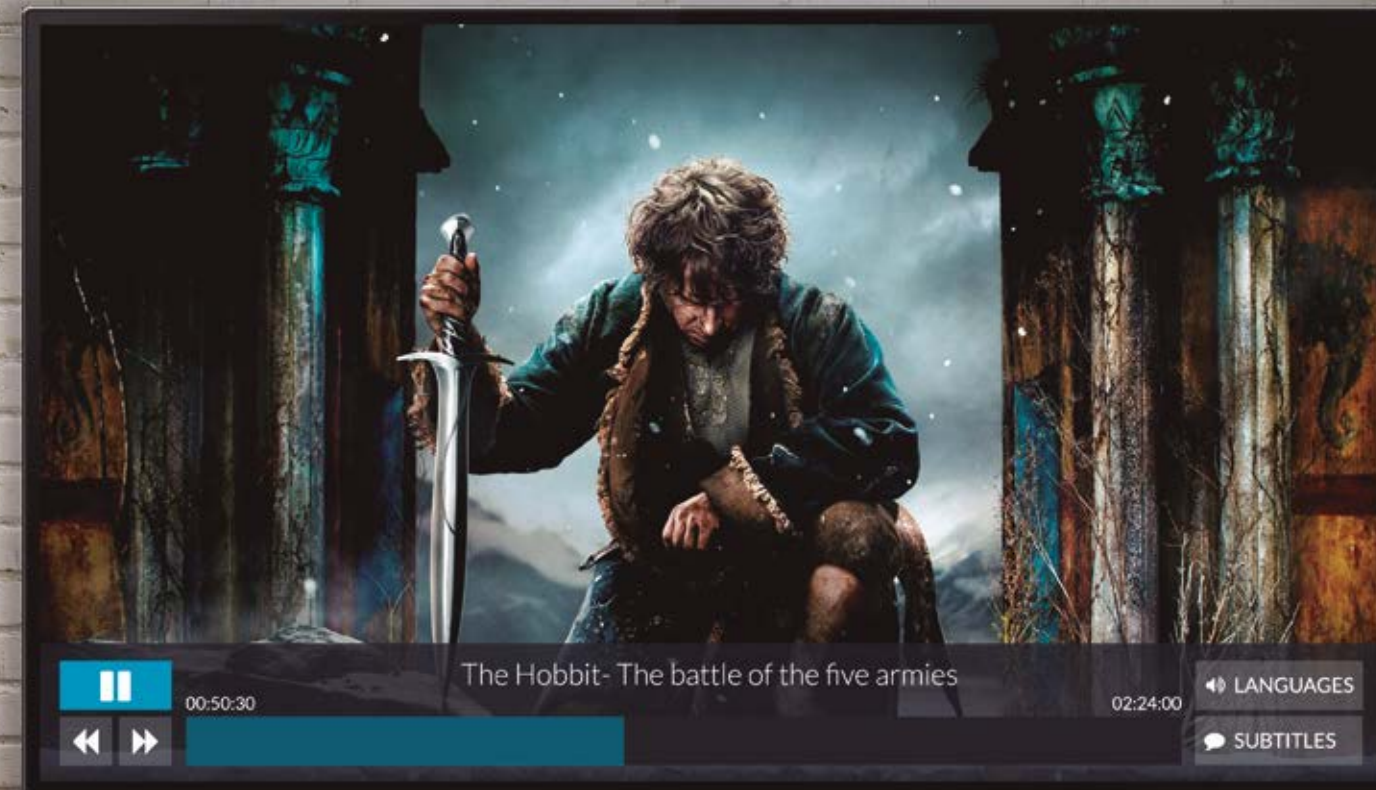

Full Internet Browsing.

Android Apps (Social Media, Games, etc).

GUEST SERVICES

Welcome, Messaging system, Guest Survey, View Folio, Express Check-out, Wake Up Call.

MIRRORING

Your mobile device in the TV!

Available for iOS and Android devices.

No need to download any App, just select AirPlay* in your iOS device or Mirroring in Android.

* AirPlay is a trademark of Apple Inc., registered in the U.S. and other countries.

MOBILITY

Absolutely all services supplied through the TV will be also available in guest mobile devices.

Watch a movie in the pool or TV in the gym, check your folio in the restaurant, order room service from the conference room...

Additionally also the Room Control System (lighting , AC, curtains,...) will be managed through the guest device.

Integrated with the hotel HSIA (Internet Access Gateway) so all services are accesible directly using a web browser.

Please let us know your requirements,
info@entertainment-solutions.com

HSIA
